I'm confused as to why Jane would have sent this to you, we shared it with her/Chad originally? Any ideas?

We will tell them about the few letters (good letters) that we've been getting on the mercury inventory and how we're handling them. Then we'll tell them that we've issued our request for applications to the National Tribal Toxics Council, which we told them we were going to do last month.

Best,

Karissa – FYI: Jane just sent this to me for tomorrow's meeting. Otherwise, we just have the UK FTA update from Chad and Jane. Anything from your office?
